

# PEAK POWER

## TEST SERIES BROCHURE

### *Every individual is unique.*

We all have our own strong & weak points. Our unique areas of expertise, and areas that need improvement.

**Then why settle for a one-size-fits-all approach towards education?**

Ascent tutorials present “Peak Power” - a personalised test preparation series powered by artificial intelligence that's fully customised to you.

## *Why is* PEAK POWER *special ?*

### ***Customise your tests***

In every test, you can adjust everything from subject areas & chapters covered, to types of questions, to difficulty level

### ***Intelligently targets areas of improvement***

After every test, peak power analyses and generates questions in the next test that focus on areas you need to improve

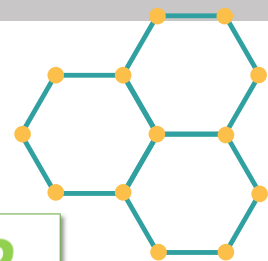

### ***Improves exam-taking skills***

It pinpoints wasted attempts, overtime attempts, incorrect attempts, or too-fast attempts in every test.

Powered by Artificial Intelligence

## How does **PEAK POWER** help you?

**Identify target subject areas you need to focus on.**

**Improves test completion speed**

**Better answering accuracy**

**Efficient time management**

**Increased stamina to give tests**

**Better planning of tests**
